Protect your staff, your customers and your business

HSW MANAGEMENT MADE EASY

Exclusive to LegalVision members, the HSW Advisory Service provides members with a comprehensive HSW Risk Management & Compliance framework and ongoing training & legal support to enable businesses and their teams to comply with their ongoing obligations under HSW Law.

Service Inclusions

Employment and HSW compliance advice

On-demand employment support

Managing HSE issues and incidents

HSW eLearning staff training

Preparation of HSW documents and policies

Development of a HSW Risk framework

HSW Management System risk assessment

Preparation of HSW tools and registers

How We Work With You

- 1 In the first month, we will conduct an initial HSW assessment and advise you on how your business is performing from a Health and Safety point of view.
- 2 Once we have identified any gaps, we will develop a HSW risk management and compliance framework and prepare all of your HSW documents, policies and tools.
- 3 Our HSW team are then on-hand to assist you whenever you need them, answer all of your health and safety questions and provide ongoing training and compliance management.

This advisory service is only available to LegalVision members. LegalVision is unable to prepare, review or sign off on manual safety procedures (including safe work method statements), provide onsite inspections or audits, nor provide advice as to the physical safety risks in your workplace.
